

# THE CONTAGION MYTH

## Why Viruses (including “Coronavirus”) Are Not the Cause of Disease

### Part 1: EXPOSING THE GERM THEORY

CHAPTER 1: CONTAGION The ping-pong ball and the wall; Koch’s postulates; Rivers’ postulates; Louis Pasteur and how he cheated.

CHAPTER 2: ELECTRICITY AND DISEASE Early electrical experiments; global electrification and influenza; worldwide radio and the Spanish flu; the Spanish flu was not contagious; cell phones and increased death; 5G implementation and the spread of Covid-19; symptoms of electrical sensitivity; evidence of harm from millimeter wave technology.

CHAPTER 3: PANDEMICS Comets and the Black Death; insect poisons and environmental toxins; Dr. Charles Campbell solves the riddle of smallpox; bats against mosquitoes; Robert Koch on TB and how he cheated; Dr. Weston Price’s observations on TB; polio and DDT; vaccine-induced paralysis; Native American diseases; Stefan Lanka and the measles virus.

CHAPTER 4: FROM AIDS TO COVID From the War on Cancer to the War on AIDS; the true causes of AIDS; AZT for AIDS patients; outbreak of Covid in Wuhan; Chinese research does not find a virus.

CHAPTER 5: TESTING SCAM The Alice-in-Wonderland world of coronavirus testing; the story of Stefan Lanka; the failed hunt for the coronavirus; the PCR test versus the gold standard; antibody testing.

CHAPTER 6: EXOSOMES Louis Pasteur and the contagion theory; social Darwinism; microscopes and germs; exosomes are viruses; fear and stress produce exosomes; nature a cooperative venture.

CHAPTER 7: RESONANCE Virology and the fork in the road; the nature of life; the discovery of resonance; resonance and childhood diseases; resonance and evolution.

### Part 2: WHAT CAUSES DISEASE?

CHAPTER 8: WATER The work of Gerald Pollack and Gilbert Ling; the four phases of water; water and electrical processes in the cell; the characteristics of life-giving water.

CHAPTER 9: FOOD Vegetable oils; animal fats and cell membrane integrity; 5G and niacin depletion; the displacing foods of modern commerce; plant-based diets; raw milk; bone broth, fermented foods; salt; the microwave oven.

CHAPTER 10: TOXINS Toxins in the ancient world; modern toxins; toxins in food; modern drugs; glyphosate and biofuels; the aluminum age; toxins in vaccines.

CHAPTER 11: MIND, BODY, AND THE ROLE OF FEAR The most widespread and pervasive toxin of the modern age; creating our world out of our consciousness; how fear and lies lead to illness.

### Part 3: CHOICES

CHAPTER 12: QUESTIONING COVID 113The numbers—Is Covid underestimated or overestimated?; alarming symptoms; treatment; masks; social distancing; 5G and the appearance of contagion.
